NEW MOBILE APP TO FOCUS ON SECURITY

~ Rachel Hatch, Media Relations

Illinois State University announced the launch of a new application called Bird Watch, which gives security tips and updates on mobile devices.

The Bird Watch mobile app provides students, faculty, staff, and the community with security information about Illinois State.

Users can access a number of important campus resources on topics that include emergency management, crime statistics, and crime prevention. The app is part of a larger campus-wide crime prevention program, based on the success of the national Neighborhood Watch Program.

Bird Watch is now available to download for Android and Apple devices at Google Play and iTunes Stores. Campus Sentinel, Inc. developed the Bird Watch app for Illinois State University, and is a company specializing in mobile applications for higher education safety and security.

For additional information, go online to BirdWatch.IllinoisState.edu.

SIGN UP TO BE A WELCOME WEEK VOLUNTEER

It's almost time again to welcome new students to campus. Faculty and staff can volunteer to help with Welcome Week (formerly Passages), a five-day program to help students feel at home at Illinois State and in the community.

Volunteer opportunities include helping with check-in at the Bone Student Center, the picnic on the Quad, breakfast with Reggie, University College meetings, campus tours, the Sleeperstar concert, and the kick-off block party.

Release time for Civil Service staff is authorized and may be granted by supervisors based on operational needs of the unit.

To register online, visit WelcomeWeekend.IllinoisState.edu/volunteer. For more information, go online or call the Dean of Students Office at 438-2836.
