FRIVOLOUS FACTS

Christmas as we know it today is a Victorian invention of the 1860s. Probably the most celebrated holiday in the world, our modern Christmas is a product of hundreds of years of both secular and religious traditions from around the globe.

GROUNDS ADVICE

--TERRY EVERETT

The thin narrow roots of large trees in the past were used by the Indians as a thread to sow the birch bark onto the framework on their canoes.

UNIVERSITY POLICIES/PROCEDURES

5.3.1 FIRE SAFETY/MEDICAL ASSISTANCE PROCEDURES

The procedures to follow when a fire alarm sounds include:

1. Call 911 immediately and report the alarm. Please note that if an alarm is sounding, but it is unknown if there is a fire, the report to the dispatcher should only indicate that there is an alarm, not a fire.
2. All alarms should be considered real. No one is to remain in the building unless they are prevented from exiting by fire and/or smoke.
3. Always check the doors for heat and the halls for smoke before exiting.
4. Evacuate the building by using the nearest exit.
5. Do not use the elevators.

Please visit www.policy.ilstu.edu for more information on this topic.

STATE FARM SELECTED AS 403(B) PROVIDER

- TOM FOWLES

The Board of Trustees approved State Farm as a 403(b) vendor at its October 24th meeting. State Farm joins ING, VALIC, Fidelity, Lincoln National, and TIAA-CREF as approved vendors for new accounts. American Century will no longer be able to solicit new participants; however, current participants may continue to contribute by payroll deduction.

Information about State Farm's 403(b) program may be found on the HR web site under benefits (www.hr.ilstu.edu/benefits/tda.shtml). If you would like to consider State Farm for your 403(b) and you have an agent, simply call your agent. If you do not already have an agent, contact the Bloomington Agency Field Office at 309/862-1446 to request to meet with an agent.

The recommendation to add State Farm and drop American Century was made by a campus committee composed of five faculty and staff members. Committee members met over the summer to review product offerings received in response to a Request for Proposal issued by Illinois State.

HISTORY MYSTERY ANSWER

The **Heating Plant** supplies the campus buildings with heat. In 1969, a remote automation center, which is capable of controlling and monitoring all of the room air systems on campus, was installed. The Heating Plant was converted from coal to gas in 1965. The plant heated 2,527,000 square feet of classrooms, residence halls and offices on campus. The change to gas made the operations quieter and cleaner and allowed the heating plant to meet future growth requirements without relocating.

CONTACT US

Please feel free to contact any Council member if you have questions, comments, or ideas so that we may better serve you. Any campus activities or information that would be relevant to Civil Service personnel can also be submitted.

Send information to the Council officers (cscouncil@ilstu.edu), to the *OpenLine* editor, Pam Burress (paburre@ilstu.edu), to our Council liaison, Vicki Bryan (vlbryan@ilstu.edu), or to any other Council member prior to the deadline (posted in the "Dates To Remember" column on page 1).
